

# DEMOSTAND

Easy Promotor!

*Attractive and impactful, DemoStand makes any demonstration look professional. DemoStand is a portable demonstration tool as well as a sampling stand or information booth. Customize the curved base and roomy header with your graphics or logo. Easy-clean, high impact polystyrene top has resilient molding on the edges for protection. Its worktop is as durable as its inner shelves which allow for plenty of storage space for supplies or product. And when the show is over, it folds flat and travels light and hassle-free in its own nylon bag. Go ahead – show and tell.*
