

POSTERSTAND 1

A Solid Stance.

Customize a self-supporting statement. Use a freestanding image display. The brochure holder of this well-built display makes sure your message gets into the right hands. QuikFrame (p. 28-31) or InFrame (p. 32-33) make changing graphics a snap. Design its base to suit your corporate identity. This unit is no pushover. Its sturdy construction means it'll stand. And deliver.

SPECIFICATIONS

PosterStand 1 on sturdy steel base in silver grey paint. Vertical posts in curved shape and horizontal extrusions in clear anodized aluminum. QuikFrame(s) (p. 28-31) or InFrame(s) (p. 32-33). Brochure holders in clear acrylic.

PosterStand 1 will be fully customized to meet your special requirements.

Please contact us for more information.

For safer transport, base plate and brochure holders need to be attached on site.

POSTERSTAND 2

Stand Tall.

42/43

Got more to say? This customized robust poster stand lets you display two graphics on each side. Its solid build means it'll stay put. QuikFrame (p. 28-31) or InFrame (p. 32-33) make it easy to change visuals. Be creative with your header to brand your logo. Then put it anywhere customers might have to wait. Standing around just got a whole lot more interesting.

SPECIFICATIONS

PosterStand 2 construction in sturdy steel frame mounted on a steel base. Silver grey paint. Double-sided QuikFrame(s) (p. 28-31) or InFrame(s) (p. 32-33). Incl. divider to accommodate 2 posters 24" x 36" per side. Curved or straight header panel in vinyl covered board.

PosterStand 2 will be fully customized to meet your special requirements.

Please contact us for more information.
