

STRETCHBANNER

Show It in Style!

StretchBanner offers a refreshing new twist to the traditional banner stand. It combines high quality printed fabric graphics and a durable anodized aluminum frame to create a contemporary and modern looking design element. Truly lightweight and portable, StretchBanner has a quick-lock connector system which makes setup a breeze. Stretch fabric will stretch in all four directions which allows the graphic to be stretched around the frame for a sleek crisp look. StretchBanner will surely show it in style for your next event or promotion.

This product is not available in US.

SPECIFICATIONS

StretchBanner, complete unit, aluminum, incl. black nylon bag.
Graphic not included.

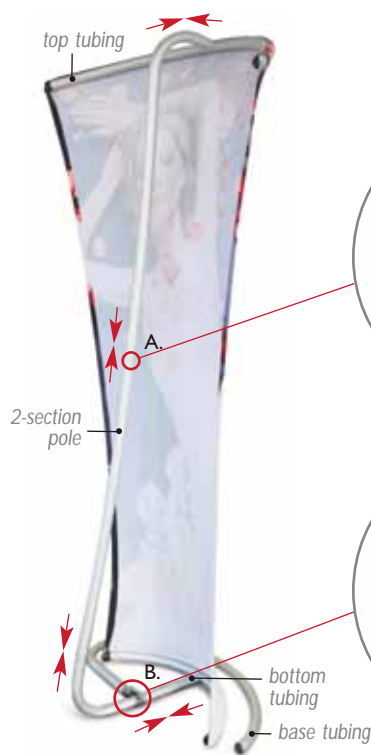

51120 Clear Anodized, 41" x 79" (104 x 200 cm)

Weight: 18 lbs. (8.2 kg)

Base material: Clear anodized aluminum

Graphic panel: Dye-sublimation on Spandex fabric

Packaging: Black nylon bag

LOCKING SYSTEM:

- A. Push in the pole stop to connect the two sections of the pole. The pole stop will pop up to lock in place. Use the same way to connect the top and the bottom parts of the pole with the horizontal tubings.

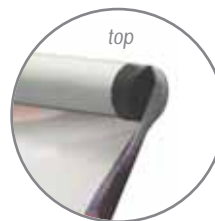

- B. Adjust the pole to make it vertical and push down the lever to tighten the pole with the base tubing.

GRAPHIC INSTALLATION:

Slightly stretch the bottom of the fabric and insert the edge (with rope inside) into the track on the bottom side of the bottom tubing. Make sure the rope inside the fabric goes into the track completely.

In the same way, insert the top edge of the fabric into the track on the top side of the top tubing.

The top and bottom edges of the fabric go to the end of the tracks and wrap around the corners of the endcaps on the top and bottom tubings.
