

VARIO D1

FOLDING DISPLAY

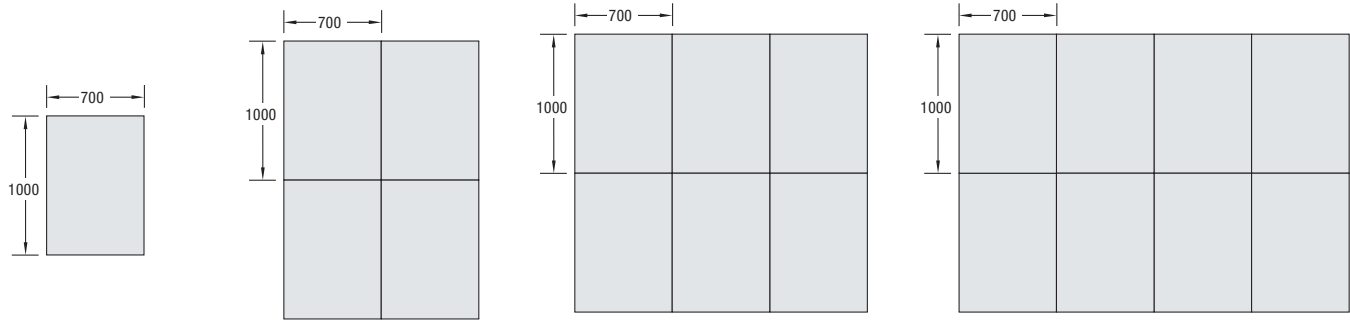

Easy and quick assembly, a variety of designs and the ability to create an effective large-scale graphic display are the main advantages of vario d1 folding display system.

Four standard modules (ranging from 700 x 1000 mm to 2800 x 2000 mm) enable a variety of presentations to be created from an individual frame up to an 8-module display.

The OCTANORM system slot enables other connection to be made. Graphic panels are quickly and easily attached by means of magnetic strips. With extras such as spotlights, carry bags and literature racks, vario d1 can be used in many different ways.

BASIC MODULES:

VA 1180
Individual frame

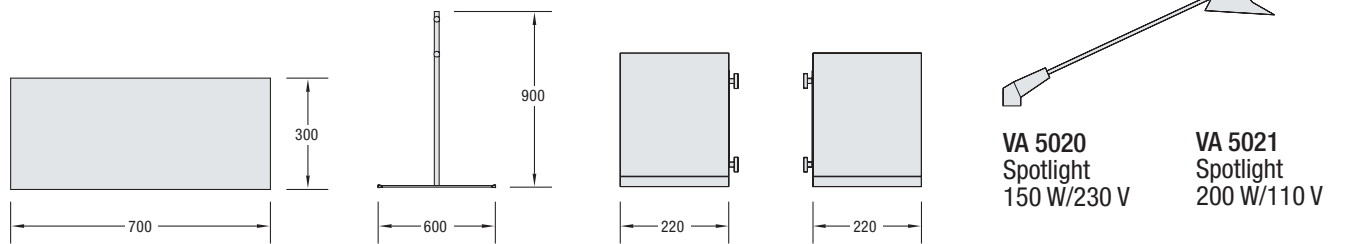

VA 1480
4-module

VA 1680
6-module
